

BUZZLINE®

P R O D U C T S

"We design to your specifications"

AERIAL BUCKET ACCESSORIES

BUZZLINE® AERIAL APRONS are designed to fit flat against the inside of the bucket providing both easy access to tools and maximum space for the lineman to work. We offer a wide variety of pocket configurations for your convenience. Each apron is constructed of heavy-duty canvas or vinyl nylon and for support; a non-conductive rod is inserted into top of the Apron. The hook holes are reinforced with brass grommets.

BUZZLINE® AERIAL TOOL BUCKETS are designed for attachment to aerial buckets to hold the tools you need for any job. Warren Heim Corporation pioneered the first aerial bags and we were the first to develop plastic lined Aerial Tool Buckets. Blackwrap™ extends bag life, cut replacement costs and promotes efficient work methods. We offer a wide variety of pocket configurations for your convenience. All BUZZLINE® Blackwrap™ Ovals feature a solid non-conductive plastic ring, molded rubber bottom and the hook holes are reinforced with brass grommets. Blackwrap™ bags also have handles available for work not only above the ground but also below and on it.

BUZZLINE® BUCKET COVERS are designed to fit a wide variety of bucket sizes and shapes. All bucket covers are made of heavy-weight vinyl coated nylon. Heavy-weight vinyl nylon is waterproof, oil, gas and tear-resistant and designed to reduce wind whip. All bucket covers have an elastic shock cord sewn into the hem. The **BUZZLINE®** Bucket Covers are also offered with Foam between two layers of heavy-weight vinyl that has been heat-sealed. This creates a dome effect over the bucket to allow maximum water run-off. All covers are offered with a choice of 4' lanyard with swivel snap to further secure the cover.

BUZZLINE® INDUSTRIAL GEAR BAGS

BUZZLINE® INDUSTRIAL GEAR BAGS are the first bags to feature the molded rubber bottom. B.I.G. Bags were developed in 1999 to offer a better bag to be used in real world conditions. BUZZLINE® Industrial Gear Bags feature two distinct advantages. First the Weather Tough Molded Rubber Bottom protects against all kinds of weather. The second advantage is the Nylon Frame. This sturdy yet flexible frame removes weight from the bag but is able to keep all the contents inside the bag.

TOOL BUCKETS

BUZZLINE® TOOL BUCKETS are made of heavy-duty canvas or yellow vinyl nylon and feature a solid round non-conductive injected molded top ring with a choice of bottom type. The bottom choices include plastic, rubber, or unitized. Tool buckets are equipped with either polypropylene rope handle or nylon webbing handle, which comes with or without a swivel snap. Rope holes are reinforced with brass grommets. All **BUZZLINE®** Tool Buckets are offered with Blackwrap™, plastic that reinforces the Tool Bucket.
